

CARYN M. GREEN

Green Family Law

Committed to Creative Dispute Resolution

Caryn and her team at Green Family Law understand the impact family law matters can have on a family. With over four decades of combined experience handling divorce, paternity, time-sharing arrangements, prenuptial/postnuptial agreements, among other matters, clients are confident they receive the skillful, responsive representation required for meaningful resolution, whether through comprehensive settlement negotiations or complex litigation.

“We seek to secure the best possible outcome for clients while minimizing potentially negative effects on families, especially children,” Caryn states, acknowledging that litigation is sometimes necessary.

Caryn is most proud to witness her clients’ resilience through such difficult moments in their lives, and feels helping families regain a sense of optimism and hope for their future is the most rewarding aspect of her career.
